CHRISTMAS DAY IN JACKSONVILLE

I like to do a chart for Christmas every year. It gives me a clue on how to decorate, what to wear, and even influence the type of gifts to give. I did the chart for noon in Jacksonville, December 25th, 2013. This year, the Moon is in Libra. Ordinarily, the Moon in Libra indicates balance and harmony, tastefulness and beauty. However, the Moon is conjunct (0 degrees) Mars. In mythology, Mars was the war god. The modern interpretation of Mars is action, passion, desire, and the pioneering spirit. The Moon/Mars energy brings strong emotions, strong feelings to the forefront. Moon/Mars is also opposite (180 degrees) the planet Uranus. This is a potent combination. This is the bull in the china shop aspect. Uranus is unpredictable and the challenging aspect to Moon/Mars has a rebellious quality. And there are more challenges. The Moon/Mars is also squaring (90 degrees) to the Sun and Pluto in Capricorn. This entire combination of planets---Moon/Mars in Libra, Uranus in Aries, and Sun/Pluto in Capricorn is a powerful, transformational indicator. We have to use all of our astrological common sense and metaphysical abilities to meet the needs of others halfway, to compromise and see the other side as equal. The holiday spirit is being tested. There is an urge to say "me", and the lesson is to say "we"! Peace, Coleman (chart attached in e-mail)

JESUS' CHART

The chart I use for Jesus is taken from the "Urantia" book. The Urantia book is interesting and controversial. It is over 2000 pages, a lengthy tome. Jimi Hendrix and Stevie Ray Vaughn carried a copy of the Urantia book with them on their many travels. Parts of the book are difficult to understand and are just wrong. Overall the book is comforting and compelling, especially the sections about Jesus. This chart has Jesus being born in Bethlehem on August 21, 7 BC at noon. The chart has a Leo Sun, and Jesus loved children and certainly was the Master teacher. The Moon is in Cancer, instinctively giving Jesus imagination and emotional depth. The Moon is trine a Mars/Neptune/South Node in Scorpio in the 12th house. Mars/Neptune in the 12th signifies the Divine Impulse and the greatest virtue---sacrifice. The planet Uranus in Pisces in the 4th house completes what astrologers call a Grand Trine, planets in 3 different signs of the same element. The Grand Trine in water signs indicates great compassion, spirituality, mercy, and enlightenment. And Jesus fulfilled all of these qualities, for he was and is the Master, the Son of the Living God. Peace, Coleman (chart attached in e-mail)

At our last meeting Rev Cathlinn Taylor gave a marvelous talk on Venus. Venus goes retrograde on Saturday December 21st at 4:53pm at 28 degrees 58' Capricorn. It will be retrograding back to 13 degrees 33' until January 31, 3:49 pm when it goes direct. Where do these degrees of Venus fall in your chart? What part of your life is Venus affecting? Thank you Cathlinn! Very useful information!

NFAA has decided to try something new with our meetings. Months that are odd numbers we will have a guest speaker. Even numbered months we will have workshops on current aspects. You should be bringing your charts (yours and those important in your life) to all meetings, especially the workshops.

ELEMENTS & QUALITIES IN ASTROLOGY

ELEMENTS & QUALITIES IN ASTROLOGY

Last in a Series of Seven

Shared by Duffy McCoy

Two of the many fascinating layers of astrology are elements and qualities. The elements are **Fire** (Aries, Leo, Sagittarius), **Earth** (Taurus, Virgo, Capricorn), **Air** (Gemini, Libra, Aquarius) and **Water** (Cancer, Scorpio, Pisces). The qualities are **Cardinal** (Aries, Cancer, Libra, Capricorn), **Fixed** (Taurus, Leo, Scorpio, Aquarius) and **Mutable** (Gemini, Virgo, Sagittarius, Pisces) are the qualities. Balance is a place we all seek, but what do you do if you have more water signs than any other element or you have no Earth. This is the last in a series of seven articles that will assist you in reaching your balance point.

There are three qualities and this article is about the **Mutable** quality. The mutable houses are the third, sixth, ninth, and twelfth. If your chart or one you are reading has a lot of mutable planets then this person will be more apt to go with the flow. I discovered I had no mutable planets and that is why I have fountains at my house and I visit the beach often. I need that for balance. If someone takes more time to process things it could be they lack mutable planets. Mutable people are resourceful, diplomatic, sympathetic, flexible and selfless. So if you need more "Go With The Flow" add to your home painting or photographs of water, aquariums, time near flowing water, mirrors, crystals, navy blue. Perhaps adding selfless jobs to your schedule could help add the balance you need.

COLEMAN'S Q & A

Question: "What were the most influential aspects of the past year?"

Answer: 2013 was a year dominated by a Uranus/Pluto square (90 degrees). The last time this aspect occurred was in 1933, right in the middle of the Great Depression. Most people I know are facing financial challenges. And this Uranus /Pluto square is in effect until 2015. Transformational Pluto in Capricorn reminds us to take the best of the old, traditional values, while progressive and innovative Uranus in Aries seeks new and novel approaches, and find common ground between the two. Transits are just that, transitory. They move on. We do need to reform banking practices, insurance methods, and even the way we govern ourselves. That is the big picture. The little picture is similar; we appear to need to tighten the belt. We all want quick answers and instant results, but Capricorn is like the turtle---slow but sure wins the ultimate race.
